Legal reference

Legal reference name

Rulebook for Amending the Rulebook for the Instrument for Support - Co-financed grants for technological extension from 04.07.2019 based on Article 25.4 from the Law on Innovation (Official Gazette of North Macedonia No. 79/2013, 137.2013, 41/2014, 44/2015, 6/2016, 53/2016, 190/2016 and 64/2018)

Legal reference (Law section / article)

Article 3

The purpose of the Instrument is to improve the adoption and adaptation of innovative, advanced technologies, know-how and technological processes in small and medium enterprises. The aim is to improve the technological capabilities of existing industries and businesses by bridging the gap between existing knowledge already available globally and local industries. The Instrument is expected to have a sectoral impact and a long-term positive contribution to increasing competitiveness.

The funding provided through this Instrument is intended to support the adoption and adaptation of innovative and advanced technologies and the improvement of business processes in SMEs of North Macedonia. The technological extension should be aimed at a group of SMEs in order to improve their productivity and competitiveness and to achieve sectoral influence.

Support can be provided for two phases of the technology extension: Phase 1 Diagnostics and Improvement Plan; and Phase 2 - Implementation of an Improvement Plan. In case there is already a Diagnostics and Improvement Plan, the applicant can only apply for Phase 2.

Through this Instrument, the Fund for Innovation and Technological Development provides financing up to 50% (fifty percent) of the total project budget in the maximum amount of 500,000.00 Euros (five hundred thousand Euros) together for the two phases.

The remaining amount of the total project budget should be provided by the applicant. Funds received from the Fund on any other basis or other form of state aid are not eligible as co-financing from the

applicant.

For projects consisting only of Phase 2 - Implementation of the Improvement Plan, the upper limits of the budget and co-financing set forth in paragraph 1 of this Article shall apply for the entire duration of the project.

For projects consisting of Phase 1 - Diagnostics and Improvement Plan; and Phase 2 Implementation of the Improvement Plan, the implementation budget of Phase 1 may be fully covered by the Fund. The financial contribution of the Fund for Phase 1 must not exceed 10% of the total allowed co-financing by the Fund for the entire project, ie. must not exceed a maximum amount of 50,000.00 euros (fifty thousand euros). Any additional costs under Phase 1 will be borne by the user.

For projects consisting of two phases, the financing of Phase 2 is subject to prior approval by the Investment Approval Committee (hereinafter: "KOI") of the submitted Diagnostics and Improvement Plan and the Implementation Report of Phase 1.

The co-financing by the Fund for the total project budget (cumulatively for Phase 1 and Phase 2) may not exceed the co-financing limits set in paragraph 1 of this Article.

The co-financing by the Fund intended for the implementation of the Improvement Plan must not exceed 200,000.00 Euros (two hundred thousand Euros) per individual end user (SME).
